

REMARKS

Claims 1-16, are presently pending in the application.

In response to the Examiners objection that the title of the invention is not descriptive, the title has been amended substantially as suggested by the examiner. Accordingly withdrawal of the objection is respectfully requested.

The Examiner has objected to the drawings as not containing proper cross-sectional hatching, particularly with respect to the transparent cooling tube 3 and the metallic reflector8. Accordingly, replacement sheets containing Figs. 1A through 3A have been submitted herewith with the proper hatching according to MPEP 608.02. No new matter has been added, and entry of the substitute sheets of drawings is respectfully requested.

The Examiner has objected to claims 7, 15 and 16 in view of several informalities. Accordingly, claim 7 has been amended to correct the spelling of "claim," and claims 15 and 16 have been typed out to include the handwritten insertions by the inventors at the time of signing. It is noted that claims 15 and 16 have still been labeled as "original" claims, since no amendments have been made to these claims subsequent to filing of the application. Accordingly, reconsideration and withdrawal of the claim objections are respectfully requested.

Finally, for purposes of scanning and publishing the application upon issuance, paragraphs [0022] and [0039] have also been retyped to incorporate the handwritten insertions of the inventors at the time of signature. As with claims 15 and 16, there are no markings on these paragraphs to show amendments, since they have not been amended but are merely retyped to incorporate the handwritten insertions.

Reply to Office Action of October 25, 2004

In view of the above amendments and remarks, it is submitted that the application is now in full condition for allowance. Reconsideration and an early notice of allowance are respectfully solicited.

Respectfully submitted,

SVEN LINOW, et al.

Attachments: Replacement Sheet 1-3 of Formal Drawings

Application No. 10/792,040
Reply to Office Action of October 25, 2004

Amendments to the Drawings:

Submitted herewith are replacement sheets for the first three sheets of the drawings, containing figures 1, 1A, 2, 2A, 3 and 3A. The drawings in these replacement sheets have been amended to use proper cross-sectional hatching in accordance with MPEP 608.02, as required by the Examiner.
